

# Vector Frame Kit 04

## VF-K-04

Stand apart from the competition with a clean, sophisticated 10' x 10' or 10' x 20' Vector Frame™ exhibit kit. These graphic mural kits feature square-corner 50mm extrusion frames and push-fit fabric graphics that cover the entire frame. Vector Frame Essential kits are easy to assemble and disassemble.

## features and benefits:

- 50mm silver extrusion frame
- Single-sided SEG dye-sublimated push-fit fabric graphics
- Easy step-by-step instructions
- Kit includes frame, five fabric graphics, four 120 watt floodlights, one fabric graphic counter, two wheeled molded cases
- Lifetime hardware warranty against manufacturer defects

## dimensions:

Hardware	Graphic

## additional information:

Graphic material:  
Dye-sublimated fabric

Tabletop color options:

Lights Included:  
Lumina 200 120 watt floodlight, curved arm, black finish, 19.5" from end to end

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

## Step 1: Assemble Frame

Arrange pieces on the floor as shown in the diagram below. Assemble frame by securing CB9-S to the F34, F42, F37 and F22s. Connect F2s to F37s. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only half a turn. Slide the IB2 into the extrusion to connect sides. Tighten to the proper tension to lock extrusions together.

## Step 2: Apply Graphics

Install graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner, go across the top and then down the sides to the bottom. Assure each graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab.

### Step 3: Attach Lights

Slide light clip onto each light. Then slide light into the extrusion channel at an angle and gently lower down and repeat for each light.

- 1- Slide light clip onto the LIGHT.
- 2- Then slide the LIGHT into the channel at an angle and then gently lower down.

Parts Included:

Code	Qty	Description
F41	x4	450MM (17.72") PHFC2 EXTRUSION WITH LOCKS TWO ENDS
F57	x4	886MM (34.88") PMFC2-90 EXTRUSION - WITH IB2 LOCK HOLES BOTH SIDES
PMFC2-90 CAP	x8	PMFC2 90 DEGREE EXTRUSION CAP
F37	x4	900MM (35.43") PHFC2 EXTRUSION WITH LOCKS TWO ENDS

## Step 1: Assemble Counter Frame

Arrange pieces on the floor as shown in the diagram below. Assemble frame by locking F37 and F41 to the F57s. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only a quarter turn, so as to not strip the locks by over tightening.

**WARNING!**  
Locks should ONLY be turned a quarter turn, so as not to STRIP the locks by over torquing them

## Step 2: Apply Graphics & Attach Countertop

Apply push-fit fabric graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner, go across the top and then down the sides to the bottom. Repeat for each side. Assure each graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab. Next, gently place the countertop onto the completed frame.
